LG 6: Covalent Compounds

Applying and Innovating:

1. I can recognize covalent/molecular compounds.
2. I can compare and contrast Ionic and Covalent compounds.

Processing and Analyzing Data and Information:

1. Can you draw a Bohr and or Lewis diagram correctly for a random element from either period 1 or 2.
2. You can compare and contrast Bohr and Lewis Dot diagrams.
3. I can describe a trend when drawing Bohr and or Lewis Dot diagrams for elements in the same family.

Communicating:

1. You can write formulas and names of Covalent/Molecular compounds.
